## SUMMARY

Software engineer with 3 years of experience in React, Angular, ASP.NET, and Azure, skilled in database management with SQL Server. Expertise in developing scalable, cross-platform apps, optimizing performance, and integrating real-time data workflows.

## SKILLS

**Frontend:** React, Redux Toolkit, TanStack Query (React Query), Context API, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Storybook, Webpack, Babel, React Testing Library, Jest, Vitest

**Performance & Accessibility:** Code Splitting, Tree Shaking, Lazy Loading, Memoization, Virtualization, ARIA, WCAG Compliance, Google Lighthouse

**Backend & APIs:** .NET Core, REST APIs, Supabase

**Cloud & DevOps:** Azure (App Services, Functions, Storage, CI/CD), Docker, YAML Pipelines, CDN Integration

**Monitoring & Tools:** Google Analytics, Git, GitHub, Agile (Scrum), Azure Devops

## EXPERIENCE

### Senior Software Engineer

RareVS Consulting (Ifundcities)

March 2025 – Present, Bengaluru, Karnataka

- Architected performance optimization strategy using lazy loading, code splitting, tree shaking, and modern **WebP/WOFF2** formats across React applications, reducing bundle size by 40% and achieving 50% faster time-to-interactive.
- Redesigned and developed Ifundcities product page using React.js with optimized rendering and interactive UI components, driving 35% increase in site traffic and reducing **bounce rate by 20%** through improved UX.
- Developed AI-powered chatbot using OpenAI GPT APIs with webhook integrations, deployed across web and Twilio SMS channels, reducing average customer response time from **4 hours to 15 minutes** and generating 225% increase in enterprise engagement (instrumental in securing **JP Morgan and LuminArx Capital contracts**).
- Engineered multiple Azure Functions to integrate company CRM with external data sources (Five9 telephony platform), enabling real-time data synchronization, eliminating 15+ hours of manual data entry weekly, and improving sales team **productivity by 30%**.

### Member of Technical Staff

First American(India)

April 2023 – March 2025, Bengaluru, Karnataka

- Integrated Stripe.js into the React application to enable secure online payments, reducing payment failures by **15%** through webhook-based transaction validation.
- Enhanced user experience by implementing Skeleton/Shimmer UI states, improving **LCP by 40%**, **reducing CLS by 50%**, and boosting the **Lighthouse performance score**.
- Engineered a custom in-app document-signing solution using **React Canvas**, replacing DocuSign, achieving **85% annual cost savings (\$30,000)** while maintaining compliance and improving UX.
- Refactored the app's UI using **Storybook-driven React components**, improving consistency, reusability, and maintainability across the codebase.

## PROJECT

### Personal Portfolio

[latest-portfolio-inky-theta.vercel.app](#) • October 2025 – October 2025

- Designed and developed a responsive **developer portfolio website** using **React, Vite, Tailwind CSS** showcasing projects and achievements with interactive animations.
- Applied **Lighthouse performance and accessibility optimizations**, achieving a **95+ performance score** and meeting **WCAG 2.1 accessibility guidelines**.
- Built reusable and modular components, improving maintainability and reducing future development effort by **30%**.

## EDUCATION

### Bachelor Of Technology

Presidency University • Bengaluru, Karnataka • 2019 – 2023 • 8.89
